

Class implementation policy

1. As announced on manaba +R web site, all the classes of this course will be conducted in face-to-face mode. However, students who are currently overseas and unable to come to Japan by a good legal reason may register and take the class online.
 - a. Students who plan to take this course online have to inform the class instructor or Administrative Office about it in advance. Specifically, they have to fill out Application Form for Special Considerations for Face-to-Face Class in relation to the Novel Coronavirus (COVID-19) Infection. The form can be downloaded from <http://www.ritsumeai.ac.jp/pathways-future/eng/course/absence.html/>
 - b. For students taking the course online, the class will be live-streamed over Zoom. The link to join is <https://ritsumeai-ac-jp.zoom.us/j/94491232448>
 - c. The link and format of the class may change whenever necessary. In this case, a separate announcement will be posted on manaba +R web site.
2. Materials of the classes, including homework assignments, will be posted on manaba +R
 - a. The materials will be posted on a weekly basis before the day the lecture is supposed to be conducted.
 - b. Students will be required to read the relevant sections of the main textbook and supplementary materials for self-study (lectures slides and sample problems) posted online.
 - c. Students will be required to submit their homework by a deadline specified for each assignment. The homework can be presented in handwritten form. The scans of the homework (in pdf format) must be uploaded to manaba+R before the next class.
 - d. Any questions related to the evaluation of homework assignments must be directed to the class teaching assistant (Mr. Didier Gohourou, email: gr0259sh@ed.ritsumeai.ac.jp) with copy to svinin@fc.ritsumeai.ac.jp
 - e. Delayed answers to homework problems will be ignored. For additional requirements refer to HomeWorkPolicy.pdf in Recourses Section.
 - f. The evaluation of the homework will be posted on manaba+R site.
3. Consultations.
 - a. The instructor will be available for online consultations. To fix an appointment, send email to svinin@fc.ritsumeai.ac.jp

Extra notes

1. *It is highly recommended that this course is taken in conjunction with “Physics.”*
2. For students who do not take “Physics for Computer Science” lecture course it is highly advisable to have access to the online materials of this course.
3. Any edition of the main textbook starting from 6th is fine for our class.
